

The Sustainable Public Procurement Programme of the 10-Year Framework of Programmes on Sustainable Consumption and Production patterns (10YFP)

“How to successfully implement a sustainable procurement programme? – Lessons learned from 5 programmes around the world”

Webinar: Wednesday 10 November 2016, 10:00-11:30

Register for the webinar [here](#).

Hosted by UN Environment, lead of the 10YFP on sustainable public procurement, this webinar is co-organized with the Sustainable Procurement Programme Sustainable Choice and the Consultancy Planet Procurement, both based in New South Wales, Australia.

In the past 10 years, sustainable procurement programmes and networks have flourished across the globe as they respond to a growing need of sustainability and procurement professionals, especially in public organisations: what are the great ideas out there? What are others doing? What do best practices look like? And, most of all, how can we work together and collaborate to achieve our sustainable procurement objectives?

Sustainable Choice commissioned Planet Procurement to benchmark 5 successful sustainable procurement programmes in order to identify best practices and lessons learned:

1. **3AR** - Association Aquitaine des Achats Publics Responsables, based in France;
2. **SPLC** - Sustainable Purchasing Leadership Council, based in the United States;
3. **Procura + Network**, a European initiative;
4. **RGO** - Réseau Grand Ouest Commande Publique et Développement Durable, based in France;
5. **APE** - Acquisti Pubblici Ecologici, based in the North of Italy.

The objectives of the webinar are to:

1. Share lessons learned of the 5 programmes that were part of the benchmarking study;
2. Build knowledge around successful sustainable procurement programmes;
3. Create connections between sustainable procurement programme managers.

This webinar is organized in the framework of the Sustainable Public Procurement Programme of the 10-Year Framework of Programmes on Sustainable Consumption and Production patterns (10YFP on SPP).

The [10YFP SPP Programme](#) is a global platform that supports the implementation of SPP around the world. It brings together a variety of stakeholders, building synergies & leveraging resources to progress towards its two major goals of **building the case for SPP** and **supporting SPP implementation on the ground**. The Programme is implemented through an extensive network of 100 partners in over 40 countries. Informative webinars are organized in order to present the SPP activities of partners and to enhance cooperation and exchange of experience.
